## Testimonial:

*"Robin gave a poignant and heartfelt talk in which she shared her ABCs of being successful in work (and in life) by being authentic, bold, and communicative in a world that often does not place high importance on those qualities. She captivated the room and inspired her audience with her candor and humor while speaking passionately and with conviction. I look forward to having the opportunity to hear her speak again at another seminar or symposium soon." Mary Jane Brewer Executive Director, AIMS International*
