

# Cargo Lifting Nets

The cost-effective way to transport cargo.

**InCord®**  
Custom Safety Netting Solutions

InCord Cargo Lifting Nets are designed for bundling and lifting loads up to 6,000 lbs. They are lightweight and resistant to abrasion, moisture, and UV degradation.

Cargo Lifting Nets are made from High Tenacity Polypropylene (HTPP) knotless netting with square mesh and a nylon peripheral rope with four reinforced loops.

An optional, quick release four-leg bridle sling enhances handling.

**Available two standard sizes:**

11.8' x 11.8' Max Payload: 3-ton US (Blue)

19.7' x 19.7' Max Payload: 2-ton US (White)
