

InCord CartNet offers a reusable containment solution for food, beverage, display and distribution carts. Nets can compact for easy storage between deliveries and last much longer than other containment options.

Optional mesh liners are available for the containment of small items. A variety of material, mesh size, and attachment options are available to suit your specifications.

- Easy to attach
- Stores compactly
- Available in a variety of mesh sizes
- Custom attachment and liner options

CartNet can be configured to extend over the top of a cart to keep product secure.
