

Truck Loading Nets

Fall protection for truck loading platform and trailer-to-trailer gaps.

InCord®
Custom Safety Netting Solutions

InCord Truck Loading Nets secure to truck side rails and loading platforms with quick-release flat hooks or snap hooks attached to both sides of the net to catch and contain personnel or cargo that may fall through an otherwise unprotected floor opening.

Truck Loading Nets are constructed using InCord N820 2-1/2" mesh, High Tenacity Polypropylene (HTPP) material and feature 1/4" sewn rope borders for even load distribution and anchoring.

- Moisture and UV resistant
- Standard or custom sizes
- Easy to install/remove
- Portable
