RPY13AN (1/2" Mesh)

Spillex™FR (Non-Porous)

Style	Material	Colors	Min. Debris Size (inch)	Opacity	Burst Strength	Weight (oz/sq yd)	FR Rating
DNR25BKFR	Knit Polyester	●	1/4	-	125 lbf Min	4.15	NFPA-701 Method 1
WS70	High Density Polyethylene	○ ●	1/8	70%	312 lbf/in <sup>2</sup>	5.1	No
WS70FR	High Density Polyethylene	○ ● ●	1/8	70%	312 lbf/in <sup>2</sup>	5.1	NFPA-701 Method 2
WS85	Knit Polyester	● ●	1/16	85%	209 lbf/in <sup>2</sup>	5.3	No
RPY13AN	Knit Polyester	○ ●	1/32	85%	500 lbf/in <sup>2</sup>	13.7	No
Spillex™ FR	Laminated Polyester Scrim	○ ●	(Non-Porous)	-	175 psi	6.2	NFPA-701 Method 2

Debris netting from InCord, customized with your full-color graphics, helps keep debris in and gets your message out. Our durable PVC-coated Polyester mesh is an effective tool for advertising or project promotion.

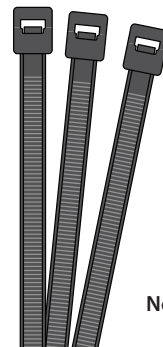

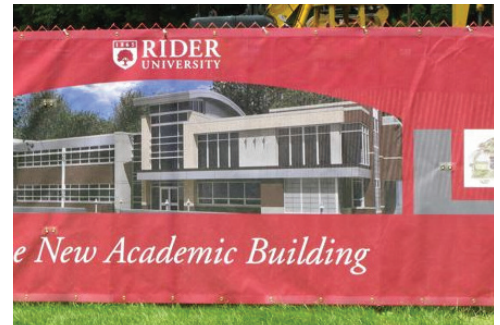

Popular as a vision block, InCord printed debris netting will communicate your message while serving as an attractive job site barrier.

InCord offers full rolls of netting to use as-is on fencing or scaffolding, or custom-sized and bordered panels to accommodate unique site challenges. Work directly with a netting expert to determine which product meets your specific needs.

### Attachment Options

InCord debris netting can install with industrial-strength netting ties, or with snap hooks to steel cable for large or complex installations. Order with hardware options for a full, turn-key solution.
