

DESIGNED FOR PLAY

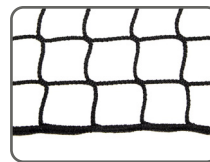

At InCord, we are experts at designing and building sports barriers and enclosures for any indoor sports application. Our netting provides the safety and function necessary for sports facilities.

In addition to new construction, InCord also designs safety systems for existing structures and spaces to renew or enhance the netting your facility already has in place. From arenas to field houses, we cover all the bases so you can keep your head in the game.

- Abrasion Resistant
- Custom Designed
- ASTM Compliant
- New or Retrofit Systems

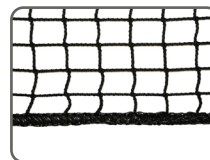

BORDER OPTIONS

SEWN BORDERS

1/8" polyester cord shown on M1250BK.

1/4" polyester cord shown on M250BK.

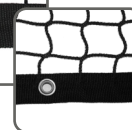

WEB BORDERS

2" polyester webbing shown on N820BK.

3" polypropylene webbing shown on N4203BK FR.

Grommets are available on web borders.

Sewn web border with vinyl sleeve to house an inner chain or pole. Adds weight, can provide even lift, and keeps net rigid when suspended.

*Chain not included

DEDICATED TO SAFETY

Protect people and property and prevent game interference with perimeter netting systems designed to suit your needs. From single panels to complete enclosures, InCord provides the right protection, no matter the sport. Keep debris off the field and keep the game out of the stands.

InCord specializes in the science of netting and we understand the importance of fire safety for your indoor facility. Many of our material options are FR treated and tested to comply with NFPA-701. Our High Tenacity Polypropylene knotless netting is also "A" rated to ASTM E84 for flame spread and smoke.

FULL COVERAGE
